

DATE: 2/1/56

Office of the DD/S&T

TO:

SUBJECT: Air Force R&D Meeting

REMARKS:

Paul:

1. I received word that the next Air Force R&D review meeting will be held on Saturday, 5 March, at 0830 at the Pentagon. You will recall that in February we sent four people from the Directorate to their meeting on Military Space R&D.

2. The subject of the briefing will be "Technical Night Attack R&D." There are two seats available and Bob Chapman normally has first crack at participating.

3. This is just for your information and unless you desire otherwise, I will take care of getting the names of the two participants at this 5 March session.
